Complete returns from all the townships are not yet in, but the Republicans are not anxious for details. It is simply now a question of majorities. In this Congressional district Hurd, Democrat, probably beats King, Republican, by 500.

FRANK JAMES.

Further Particulars of the Bandit's Surrender.

KANSAS CITY, Mo., October 5.—Frank James surrendered to Gov. Crittenden, at Jefferson City, at 5 o'clock this evening, and will be brought here to-morrow morning and delivered to the Jackson county authorities. Gov. Crittenden telegraphs that officers will leave to-night with the prisoner. Officials here express some surprise at James' action, as no overtures had been made on their part toward a surrender. They think Frank had become discouraged, having in various ways lost all of his old connections, and concluded it was useless to attempt longer to live in outlawry, preferring to trust to the leniency of the law in voluntarily giving himself up.

THE COMET SEPARATES INTO THREE PARTS.

On October 8th, at 4:30 o'clock, Mr. E. E. Barnard, of Nashville, discovered that the nucleus of the comet had separated into three unequal fragments. The largest he estimates at fifteen thousand miles in length. The space between the fragments of nucleus he estimates at not less than two thousand miles. Yesterday Mr. Barnard observed that the nucleus had assumed the form of a long strip, not less than twenty-four thousand miles in length, and three thousand in breadth.

Prof. Wilson, of the Cincinnati Observatory, corroborates the statement coming from Nashville of the separation of the nucleus of the comet this morning into three unequal fragments. His estimate of their size and distance apart agrees with that made at Nashville. The disturbance makes no difference in the appearance of the comet to the naked eye.

GARFIELD Clubs, composed of Garfield Republicans, are being formed in New York to support the Democratic ticket. That is right. Let them come over to the Democracy.
